

Call for Papers

WiPSCE 2023

The 18th WiPSCE Conference on Primary and Secondary Computing Education Research

September 27–29, 2023 | Cambridge, England | wipsce.org

We invite you to submit a paper, report, or poster for the 18th WiPSCE Conference on Primary and Secondary Computing Education (WiPSCE 2023) and to join us in Cambridge, England.

Research in primary and secondary computing education is a young field with strong ties to national educational systems. Nevertheless, its theories, methods, and results are internationally applicable and of interest to researchers and practitioners in the field. WiPSCE aims at improving the exchange of research and practice relevant to teaching and learning in primary and secondary computing education, teacher training, and related research.

Accepted papers will be published in the WiPSCE 2023 proceedings as part of the ACM International Conference Proceedings Series. The proceedings will be included in the ACM Digital Library (approval pending).

Topics of interest include, but are not limited to research on:

- Learning & Teaching: student motivation and engagement, attitudes and beliefs, student conceptions, learning difficulties, educational approaches, methods, contests, technologies and tools
- Foundations of Computing Education: competence modelling and measurement, assessment, curricula and standards, emerging topics for computing education
- Teacher Education & Institutional Aspects: pedagogical content knowledge in computing, establishing and enhancing computing education, (continued) professional development, communities of practice

PRE-REVIEW SUBMISSIONS

WiPSCE offers a voluntary pre-review submission option to provide feedback to authors on their work prior to the actual submission to the conference. This option is voluntary: everyone may use it, nobody must. Those who make use of this opportunity are not favoured in the actual review process and a recommendation by the PC members is no guarantee that the paper will be accepted.

IMPORTANT DATES

Pre-review submission deadline (all categories):	March 06, 2023
Pre-review submission feedback (all categories):	March 27, 2023
Submission deadline (full/short paper abstracts) ¹ :	April 24, 2023
Re-submission deadline (full/short papers):	May 02, 2023
Notification of acceptance (full/short papers):	June 12, 2023
Submission deadline (poster abstracts):	June 26, 2023
Notification of acceptance (poster abstracts):	July 10, 2023
Submission deadline (camera ready versions):	July 24, 2023

All dates are midnight "[anywhere on earth](#)".

PROCEEDINGS

Accepted papers will be published in the WiPSCE 2023 proceedings as part of the ACM International Conference Proceedings Series, which will be included in the ACM Digital Library (ACM approval pending).

SUBMISSION GUIDELINES AND FORMAT

All information regarding submissions will be provided on the conference website shortly.
