

Call for Papers – WiPSCE 2024

The 19th WiPSCE Conference on Primary and Secondary Computing Education

September 16–18, 2024 | Munich, Germany | <https://www.wipsce.org/2024/>

We invite you to submit a paper, report, or poster for the [19th WiPSCE Conference on Primary and Secondary Computing Education \(WiPSCE 2024\)](https://www.wipsce.org/2024/) and to join us in Munich, Germany.

Research in primary and secondary computing education is a young field with strong ties to national educational systems. Nevertheless, its theories, methods, and results are internationally applicable and of interest to researchers and practitioners in the field. WiPSCE aims at improving the exchange of research and practice relevant to teaching and learning in primary and secondary computing education, teacher training, and related research.

Accepted papers will be published in the WiPSCE 2024 proceedings as part of the ACM International Conference Proceedings Series. The proceedings will be included in the ACM Digital Library.

Topics of interest include, but are not limited to research on:

- **Learning & Teaching:** student motivation and engagement, attitudes and beliefs, student conceptions, learning difficulties, educational approaches, methods, contexts, technologies and tools
- **Foundations of Computing Education:** competence modelling and measurement, assessment, curricula and standards, emerging topics for computing education
- **Teacher Education & Institutional Aspects:** pedagogical content knowledge in computing, establishing and enhancing computing education, (continued) professional development, communities of practice

PRE-REVIEW SUBMISSIONS

WiPSCE offers a voluntary pre-review submission option to provide feedback to authors on their work prior to the actual submission to the conference. Authors who make use of this opportunity are not favoured in the actual review process and a recommendation by the PC members is no guarantee that the paper will be accepted.
